TAB 2.

Classes, Definitions and Eligibility (CDE)

CLASSES, DEFINITION AND ELIGIBILITY

CDE 1. RAS CERTIFICATE & HORSE/PONY CLASSIFICATION

- a) Where classes are defined by height, competitors/exhibitors must carry a current RAS Certificate for their horse/pony at all RAS affiliated Shows/Events, and must produce it upon request to any authorised Show/Event personnel. Any competitor unable to produce such a certificate means that the exhibit is ineligible to compete, and will forfeit any awards.
- b) Height of horse/pony shall be the deciding factor when entering in classes defined by height at affiliated shows/events.
- c) The classification (section nominated) of a horse or pony must be made at the time of its first adult measure; however a change to this classification (section nominated) (with the exceptions listed in rule CDE 1 d) may be made by making application to RAS Head Office (download the application from the website www.ras.org.nz). Any subsequent changes will require a full submission with the final decision on granting further changes resting with the RAS Executive.
- d) Regardless of Rule CDE 1 c), equestrian title winners at Royal A&P Shows, /Events, Showing Championships endorsed by the RAS or HOY are not entitled to change classification (section) after winning a title class at any of these events and must stay within their nominated classification (section).
- e) If a horse is measured over 148cm, and was previously measured as a pony, it must thereafter stay in the horse sections, but may choose the horse classification of their choice. In addition any horse measured up from a pony height must, if of age, present for a life certificate.

CDE 2. LEAD REIN

- a) Lead Rein Ponies should be safe and suitable. They should possess a good front, even gaits and not be too wide for their small riders. The stride should not be too long, as they would unseat the rider and cause the rider to lose balance.
- b) Lead rein classes are designed for children on ponies 128cm and under. These children are those as yet unable to ride without assistance from a leader or attendant and should be judged accordingly.
- c) Riders taking part in this section are excluded from taking part in other sections of the show.
- d) The lead must be attached to the cavesson of a simple snaffle bridle – refer to Appendix B.
- e) The attendant/leader, must be 14 years or over, and hold the rein with their left hand so the right hand is free to assist the rider if necessary.
- f) Spurs are not allowed.
- g) A cane or a whip not exceeding 68cm in length, which includes a flap 2cm wide by 4cm long, may be carried by riders in the Lead Rein Section.
- h) Judging Criteria: Judged on - 60 % suitability, temperament and safeness;
- 40% conformation and paces.

- i) Riders will not be asked to canter.
- j) A Best on Parade, Best Turned Out or Unity class is the only competition within this section when the costume or dress of the leader may also be taken into account.
If it is the intention of the Show/Event to include the attendant/leader (14 years and over) as a part of the unit, this must be stated in the schedule. If the intention of the Show/Event is not properly stated it is reasonable for all parties connected with the horse/pony in the ring to assume that only the horse/pony and rider will be judged.
- k) Riders who have competed in the First Ridden, Novice and Open Pony Sections are no longer eligible for the Lead Rein section.

CDE 3. FIRST RIDDEN COMBINATION

- a) To provide a transition from the Lead Rein section to the open ridden section, where a rider does not have to canter on the circle in company. For that reason First Ridden Ponies should be safe and suitable. They should possess a good front, even gaits and not be too wide for their small riders. The stride should not be too long, as this would unseat the rider and cause the rider to lose balance. Ideally the First Ridden Pony is a little more scopey in both conformation and movement than the Lead Rein Pony, although many ponies compete successfully in both sections.
- b) A Combination is only able to compete in this section for a maximum of twenty- four (24) months.
- c) First Ridden Ponies not to exceed 138cm.
- d) First Ridden Ponies must be ridden in a snaffle bridle with a cavesson noseband, a snaffle bit and a single rein – refer to Appendix B.
- e) A First Ridden Pony may compete in the Open ring with a different rider.
- f) No spurs to be worn.
- g) A cane or a whip not exceeding 68cm in length, which includes a flap 2cm wide by 4cm long, may be carried by riders in the First Ridden Section.
- h) Judging Criteria: Judged on - 60% suitability, temperament and safeness
- 40% conformation and paces.
- i) All ponies to walk and trot in company, but may be asked to canter in their individual workout.
- j) Before finalising the workout the Judge must ascertain if the children can all manage canter work. If the children are not confident with canter this pace should not be included in the work out. Whatever paces the workout finally contains, it must be simple and designed to show that the child can manage a change of direction and a recognisable circle as a demonstration of the control and understanding expected at this level and age. Good manners and willingness from the pony and the balance and degree of control from the rider should each be taken into account. Conformation of the First Ridden Pony should be taken into account if more than one First Ridden class is offered and if this intention is clearly stated in the class description.
- k) The same combination cannot enter in both the Lead Rein Section and the First Ridden Section or in an open ring, but a pony that has been entered in the Lead Rein, Group B or Group C Sections can be entered in the First Ridden Section with a different rider (who is eligible to compete in this section).
- l) A rider who has moved from the First Ridden into the open rings forfeits the right to compete again in any First Ridden Events at any A&P Show, affiliated show or event, or any show that the RAS may from time to time designate as a show requiring specific qualifications (e.g. Horse of the Year)

CDE 4. PONIES - Height Division

If you have 0, 1, 2 or 3 wins – you can enter the 0-3 wins class
If you have 0, 1, 2, 3, 4 or 5 wins – you can enter the 0-5 wins class
Once you have achieved 6 wins in Conformation and/or Paced & Mannered classes, you can no longer enter in Novice classes in that category.

- c) Sections may be Show Pony, Saddle Hunter Pony, Cobs, Park Hacks, Hacks, Saddle Hunters, Riding Horses, Paced and Manners Classes in each of the preceding divisions, Working Hunters (ponies/horses), Hunter Jumping Horse/Pony, and Rider Classes.
- d) Once an exhibit has achieved six (6) wins in any RAS section, the exhibit is not eligible to return to 'Novice' status even if it changes sections. Refer to CDE. 1 c) and d).
- e) Winners failing to produce their RAS Certificate when requested by the Steward forfeit their awards on the day.
- f) An Open Pony may start in the Open classes within the First Ridden or Lead Rein sections only (not in the Novice classes).
- g) Novice exhibits are eligible for Open classes. If that Novice exhibit wins the Open class then they are eligible for the Open Championship.
- h) All wins in Novice classes within each section (not breed sections) count and must be recorded on the RAS Certificate. Should a Novice exhibit win an Open conformation class including Ladies and Gents classes, these wins must also be recorded.
- i) The number of Novice wins is to be counted at the time of the Show/Event, not the time of entry. If a Novice entry exceeds the permitted number of wins by the day of the Show/Event, the competitor must advise the Secretary's Office and change to an Open class, or if no class remains to enter, a refund will be actioned after the Show/Event.
- j) **Imported Horse/Pony** - Any wins gained overseas by a horse/pony that is imported into New Zealand, count towards their classification when showing in New Zealand, i.e. whether it can still compete in the Novice section (5 wins or less), or if it has 6 or more wins, then it must compete in the Open section.

CDE 7. JUDGING OF CHAMPIONSHIPS

- a) **Championships**

 - ii. Open Championships: Judged from the winners of the Open Conformation classes within that section.
 - iii. Paced and Mannered Championships: Judged from the winners of the Paced and Mannered classes within that section.

- viii. The exhibit competing for Champion, Reserve Champion or Supreme Champion should be ridden by the rider who qualified the exhibit; however dispensation for a substitute rider may be given at the discretion Chief Steward under the following conditions:
 - i. in the event of illness, or
 - ii. the original rider is competing in another ring, or
 - iii. has more than one exhibit in the Championships, or
 - iv. Show/Event's timetable does not allow – the Show/Event will endeavour to make every effort to accommodate.

- The first place winners from relevant classes return to the ring
- Second place winners to standby
- The Judge will then select his/her Champion.

c) Reserve Champion

- Remaining first class winners to remain in the ring.
- Steward then calls in the second place winner from the class(es) from which the Champion has been selected. The exhibit must receive the same consideration as the first place class winners and judge equally for the title of Reserve Champion.
- The only exemption to this rule is when a Show/Event offers Champion Hunter Class to be competed for by virtue of a payment of a fee to start in a specifically designed and described class.

d) Supreme Champion

- Open Championship winners from all appropriate Divisions judged under the 60 / 40 criteria.
- Winners judged under any other criteria do not qualify. i.e. Working Hunters.

- The Chief Steward and an assistant will collate the placings, using the Official RAS Stewards Record Pad Form.
- The ID number of the exhibit with the highest number of First placings is the winner.

- In the case of equal first the second placings will be used and so on until the winner is established.

Minimum Standard Qualifying Section Schedule For Shows/Events (MSS)

MINIMUM STANDARD QUALIFYING SECTION SCHEDULE FOR ALL AFFILIATED SHOWS/EVENTS

MSS 1.

- a) Showing classes are standardised throughout New Zealand. The Standard Qualifying Section Schedule is therefore the basis for all Show/Event Schedules.**
- b) A Standard Qualifying Section Schedule (see MSS 2) is to be offered, so competitors and horses/ponies can qualify for Royal A&P Shows/Events, Showing Championships endorsed by the RAS or NZ Horse of the Year (HOY). Shows/Events are not obliged to run all the sections, they can choose the sections they have the ability to run or suit their region, however the sections they choose must be run as a complete unit as stated. (i.e. classes cannot be substituted, changed or deleted)**
- c) Shows unable to offer any of the sections in total of the standard qualifying section schedule may construct their own programme; however it must state clearly in their schedule that their show does not qualify competitors or horses/ponies for any Royal A&P Shows/Events, Showing Championships or HOY. A sample non qualifying schedule is available from RAS Head Office.**

MSS 2. MINIMUM STANDARD QUALIFYING SECTION SCHEDULE FOR SHOWS/EVENTS

- a) The Standard Qualifying Section Schedule as presented is the Section Schedule to be offered by all affiliated Shows/Events wishing to qualify horses and ponies for the Royal A&P Show/Events and the HOY.
- b) Qualifying Shows/Events must use all or some of the sections listed; however when using a section (e.g. Saddle Hunters) they must use the entire list of classes within that section (i.e. classes cannot be substituted, changed or deleted)
- c) Shows/Events are encouraged to add classes as local conditions and level of entries support. Examples of additional classes that may be added to the standard qualifying section are; Best on Parade, Novice no wins, Led Mares, Led Thoroughbreds, Pairs and Teams Classes, Sash Classes such as the Pony Breeders Society of NZ (Inc) Ridden Sash etc.
- d) All Novice pony classes are open to riders of any age except that special rules are in place for ridden stallions (see Age of Riders).
- e) The standard qualifying section schedule in each horse section offers a lady's and gentleman's or a combined class. This gives shows/events an option and competitors should note that when shows offer the separate option (lady's class and gentleman's class) the classes are only open to that gender.

- f) Owners of horses/ponies that fall outside the parameters of the sections scheduled at a Show/Event not using the entire range of sections, will find other events that suit them at a show that does catalogue their section.

Youngstock measures are specifically designed for youngstock ponies and miniature horses, as they are entered in classes relating to their height at maturity. The Pony Breeders Society of NZ, the NZ Riding Pony Society and the NZ Miniature Horse Association have issued the RAS with a height for age guide.

It is deemed that youngstock that will mature to be a horse can mature to any height, therefore height as a yearling and two year old are irrelevant, unless a breed society requests height for age in their schedules.

If it does not attain the same height then a NEW RAS Certificate, whether it be an Annual or a Life measure, must be issued and signed by both parties, measurers and witness, and the invalid RAS Certificate be CANCELLED. If the NEW RAS Certificate is a Life, the Vet certificate/Life Measure Form relating to the queried RAS Certificate, must also be signed by both parties noting the change in height, and a copy forwarded to the District Secretary and RAS Head Office as per rule M7 e).
This measure shall be final and binding. No further action shall be entered into.

- c) All young stock must be presented with the area around the last hair of the mane clipped to ensure that the last true hair is readily identifiable. Notwithstanding the pre-measurement clipping, the RAS Measuring Steward shall be the sole arbiter of which hair in fact is to be the last in the mane.

Appendix TAB A.

Appendix to Measuring Rules -Temporary Measuring Certificate

Royal Agricultural Society Temporary Measuring Certificates

Appendix To Measuring Rules

Temporary measuring certificates are for specific circumstances only and under strict guidelines. The underlying principle behind a temporary measuring certificate is for those new and/or local riders that only go to their local show/s. There is no other reason for a temporary measuring certificate to be issued as this undermines the RAS measuring system. They (temporary measuring certificates) do not form part of the General Measuring Rules (other than be defined) as they are the "exception to the rule" and all matters pertaining to the issue and conduct of a temporary measuring certificates are contained within this appendix.

- a) Shows wishing to utilise the temporary measuring certificate system must make application to the RAS Head Office (RHO) annually.
- b) On approval from RHO, a RAS temporary measuring certificate pad will be issued at the going rate.

- e) A maximum of two temporary measuring certificates in one show season may be obtained.
- f) The show/event issuing the temporary measuring certificate can only do the measures within the timeframe of the show/event. i.e. Measuring days for temporary certificates cannot be held prior to the show/event.
- g) Competitors/exhibitors obtaining temporary measuring certificates must live in the defined Show District boundary.
- h) Any personnel undertaking measuring for temporary measuring certificates must register and be approved by RHO.
- i) Shows with measuring stands at their showgrounds cannot issue temporary measuring certificates, they must issue an ID/ height certificate from their Metcalf Measuring Machine.
- j) Any Wins are to be recorded on the temporary measuring certificate and must be transferred if an ID height certificate is issued at any time.
- k) Any wins recorded on a temporary measuring certificate are not valid for Royal Event or Royal Show ribbon or medal.
- l) Any wins recorded on a temporary measuring certificate cannot be used as a qualifier for HOY or any other show that runs a similar system. This includes not being able to use the presence of the horse, pony or rider at a show/event as a qualifier for HOY.
- m) The Yellow Carbon Copy of temporary measuring certificate to be sent to RHO immediately following the show or event together with payment.
- n) Measures to be undertaken on a clean, flat concrete surface or similar.
- o) Measuring stick must have an installed levelling bubble.
- p) Handling – The horse or pony to be measured shall be handled quietly and allowed a reasonable time to settle.

- q) Stance – The horse or pony shall stand squarely on all four legs, head in its aural relaxed position. The poll shall not be lower than the highest point of the wither.
- r) The measurement shall be taken at the highest part of the wither.
- s) Horse/ponies 3 years and over are required to be presented for measuring in a bridle and shall have a bit in their mouth. The reins or the lead shall be connected to the bit.
- t) Horses/ponies are not to be presented for measuring wearing rugs, hoods etc. Any leg wraps or boots shall be removed if requested by the person measuring.
- u) If shoes are fitted, 0.5cm allowance only shall be made. No allowance shall be made for thin or worn racing plates or shoes.
- v) Miniatures and young stock are excluded from obtaining a temporary measuring certificate.
- w) Any person who presents a horse or pony for a temporary measuring certificate which is found to have had administered to it or ingested by it, any forbidden substance, commits a breach of the RAS Forbidden Substance rules. The person may be charged under the Forbidden Substance Rules, Regulations & By-laws of the Royal Agricultural Society of New Zealand.
- x) No appeals on temporary measuring certificates will be allowed.
- y) The RAS Executive reserves the right to terminate this appendix to the rules, if the competitors and/or shows do not comply with the rules.

DEFINITIONS

Hack

Park Hack over 148cm and not exceeding 148cm. Hack over 158cm. The ideal Hack should be a sound quality animal with excellent conformation and an even temperament.

A top class hack will also show elegance and gaiety and demonstrate very good movement. The stride is expected to be long, straight and light covering a lot of ground with some extravagance. Exaggerated knee action is not desirable.

Lady's Hack.

A Lady's Hack should be a very elegant horse suitable for the size of the lady riding it; therefore a lady's hack should give the general appearance of being a good match with the rider rather than a smaller horse as commonly thought. The horse should be well mannered and obedient but never dull or mechanical.

Gentleman's Hack

A Gentleman's Hack should be a quality animal with substance and bone. A horse with an appearance of strength without losing quality with powerful steps and one that carries his rider with ease and pride. The rider and the horse should appear a good match.

Thoroughbred Hack

When judging a horse showing thoroughbred type the class description states the base requirement. This class does not require a horse to appear as if he or she is ready to race.

Riding Horse

Riding Horse over 148cm. This is a sound quality Show Horse with presence. Slightly less elegance and gaiety than the Show Hack. It has more bone and substance than a Show Hack but not as heavy as a Hunter, with workman like strong even paces and able to produce a good gallop. Excellent conformation, manners and temperament and capable of carrying a Lady or Gentleman rider pleasantly over longer journeys than a Show Hack.

Saddle Hunter.

Over 148cm . The ideal Hunter under saddle should have substance, be active and well mannered, with strong easy paces. Saddle Hunter be it horse or pony must be capable of carrying weight for long distances over varied country.

A Hunter is described as handsome rather than beautiful as one would describe a winning hack. They should be a sound, quality animal with presence and must not be common.

Saddle Hunters are expected to gallop in their workout and the gallop must play a large part in the decision of the judge

Cob

Cobs up to 155cm. Although the original native horses and ponies of Wales include the classification of Welsh Section C and Welsh Section D, Show Ring Cobs may be any breeds. A cob is a deep-bodied horse with generous hindquarters. The body is underpinned with more bone than desirable on a hack. The deep body gives the appearance of shorter legs.

The head on cobs is handsome rather than pretty and the general appearance is of a utility animal with a relatively high tail carriage. Since docking was outlawed it has been acceptable to bind and or plait the tail although a pulled banged tail is equally correct. The cob should appear to be a jaunty jolly type offering a comfortable ride. The conformation criteria laid down for hacks apply.

Pony (Hack Type)

See Hack description. Ponies should have definite pony type and characteristics.

Pony (Hunter Type)

See Saddle Hunter description. Ponies should have definite pony type and characteristics.

Working Hunter.

Over 148cm. Working Hunters are required to demonstrate good jumping ability, strong paces including a good gallop. Be of good strong conformation showing good manners and be a comfortable ride over long distances.

Working Hunter Pony.

Working Hunter Pony not exceeding 148cm. See Working Hunter description.

CONFORMATION STANDARD OF THE IDEAL SHOW HORSE

Head

The head should be in proportion to the body, not over large, well set on with defined features, the forehead broad, tapering to a finer muzzle with large open nostrils.

The eyes should be clear and bold, showing an intelligent expression and denoting calmness. The ears should not be too large but well-shaped, very alert and carried forward.

Neck

The Show horse should have what is commonly termed "a good length of rein" It should be graceful and supple whilst forming a natural arch from the withers to the poll and be in proportion to the size of the animal.

Shoulders

A good sloping shoulder with a well-defined wither is desirable, as the horse with this build will usually give a good ride, while a straight shoulder inevitably produces the opposite.

Chest

The chest should be well developed. The ribs well sprung with a deep girth.

Back & Body

The back should be relatively short and strong. There should be plenty of width from the point of hip to the croup with the tail well set on. The back should not be hollowed, dipped or roached.

Hindquarters

Should be rounded, well developed with a strong second thigh.

Limbs

The forelegs should be well set, not too wide apart nor too close. They should be clean and free from any puffiness or signs of faulty bone conformation.

The elbow defined and standing clear of the body.

The knees should be flat and pronounced, not round or small.

The cannon bone should be strong, wide from front to back and not too long.

The tendons should be well defined, the fetlock wide and clean.

The pasterns should be of medium length and slope.

The hind legs should follow a vertical line from the point of the buttock to the point of the hock to the back of the fetlock. The hocks should be large, strong and clean cut.

The hooves should be neither too large nor too small with a regular slope to the wall of each foot; the heels should be strong, wide and deep. The soles should be clean well defined with a pronounced frog.

Note: Splints are a healing process and should not be interfered with. They can be unsightly and may increase in size if a horse is kept in work after the splint begins to form. Horses should not be discriminated against because of splints.

Faults such as offset knees, bench knees calf knees and back at the knee can all be contributing factors in the appearance of splints. If a horse is put down with splints the contributing conformation defect must be the reason for this decision. Splints that are not accompanied by

conformation defects should not be taken into account unless a Judge is unable to decide between two top class horses that have shown exemplary workouts.

Scars are not the fault of the horse and provided that they do not impinge on the movement of the horse and provided that the scar is relatively unsightly no penalty should be imposed.

The locomotion of a horse must be true; deviations in the extreme are not acceptable. While few horses and ponies are 'dead straight' we are looking for a horse or pony that strides out freely and briskly with relatively straight action.
